QMU’s CAMPUS
QMU’s students and staff enjoy a purpose-built campus on the south-east side of Edinburgh, by Musselburgh. At the heart of the campus is an innovative learning resource centre (LRC), combining IT and library facilities, and offering a wide variety of flexible learning spaces. The campus also includes well equipped specialist laboratories and clinics, en-suite student residences, a students’ union building, sports facilities and attractive landscaped gardens. QMU is the first Scottish university to have an on-campus Business Gateway. The Gateway is run by East Lothian Council and located within QMU’s Business Innovation Zone.

ABOUT QUEEN MARGARET UNIVERSITY

From its very inception, QMU has focused on providing relevant education and research, addressing real-life issues to enhance the social and economic well-being of all the communities we serve. We have flagships in:

- health and rehabilitation,
- creativity and culture, and
- sustainable business.

With a purpose built campus, excellent support and a robust employability strategy, we offer students a friendly and supportive community environment in which they can fulfil their potential.

VISION

Our vision is to be a university of ideas and influence.

RESEARCH & KNOWLEDGE EXCHANGE

QMU is committed to improving the quality of life and building the evidence-base for policy and practice through world leading multidisciplinary, translational research and international collaboration. QMU has a strong track record in building relationships with external partners, particularly SMEs.

Research is focused on Centres in: Health, Activity and Rehabilitation; Applied Social Science; Person Centred Practice; Audiology; Speech and Language Sciences; Global Health and Development; and Communication, Cultural and Media Studies. Specialist Knowledge Exchange Centres include: Food Development and Innovation; Dialogue and Public Engagement; and Consumer Dispute Resolution.

In the Research Excellence Framework 2014 (REF):

- Speech and Hearing Sciences rated 1st in Scotland and 2nd in the UK for the proportion of research classed as world leading or internationally excellent.
- 40% of research in Psychology resulted in outstanding impact.
- QMU ranked 1st in Scotland for Media and Communications research publications with 78% of its outputs ranked as world leading and internationally excellent.
- Over 40% of research publications in Allied Health rated world leading or internationally excellent.
- Over 50% of the research profile in Global Health and Development rated world leading/internationally excellent.

SUBJECT AREAS

Business, Enterprise and Management

- Art; Psychotherapy; Music Therapy; Occupational Therapy; Speech and Hearing Sciences; Dietetics, Nutrition and Biological Sciences; Food Science; Global Health and Social Development; Nursing; Physiotherapy; Physical Activity, Health and Wellbeing; Podiatry and Diabetes; Radiography

Education
- Professional and Higher Education

MISSION

Our mission is to foster intellectual capital with both a theoretical and practical focus, giving students and staff the confidence to make a real difference to the world around them.

We are known not only for excellent, relevant teaching, research and knowledge exchange but also for the care and respect we give our students, staff and partners. As a thriving campus university we strive to create a community without borders, helping to improve people's lives locally, nationally and internationally. We are ambitious and enterprising, and, in everything we do, we are committed to social justice.

SUSTAINABILITY

Sustainability is at the core of the University's mission. QMU takes a joined up approach to the social, environmental and economic dimensions of sustainable development. This holistic approach to achieving a lasting legacy of sustainable practice takes account of the immediate campus environment and extends into curriculum development and leadership training. Recognised as an exemplar in sustainability within the HE sector, QMU's campus is a physical example of the University's commitment to sustainability. QMU has recently introduced a new sustainability trail which highlights its sustainable features on campus.

LEARNING AND TEACHING

QMU’s robust arrangements for securing academic standards and for enhancing the quality of the student experience were confirmed through its achievement of the highest level of judgement, i.e. ’Effective’, in the Enhancement-led Institutional Review conducted by the Quality Assurance Agency for Higher Education (2013). All our programmes have clear professional and vocational aims that promote graduate employability. With strong international links, QMU’s learning and teaching is far reaching. We deliver a broad portfolio of undergraduate and postgraduate programmes with international partners in Egypt, Greece, India, Nepal and Singapore.
